David J. Holt

Healthcare and Business Attorney at Holt Law LLC | Patient Advocate | Entrepreneur
Co-founder at miVoyce

As a Minnesota-based lawyer, David J. Holt (“DJ”) is transforming the future of healthcare as both an attorney and an entrepreneur. By bringing a legal mindset to his own healthcare tech startup ([miVoyce](#)) and an entrepreneurial mindset to his legal practice ([Holt Law LLC](#)), David has found success in the industry not just for himself, but for those he’s had the opportunity to work with and represent.

Education

David earned a Bachelor’s degree in Biomedical Engineering from the University of Minnesota in 2010. During his four years as an undergrad on the Twin Cities campus, David worked on a number of medical devices and completed directed research at the Stem Cell Institute. In addition, David was the president and founder of the U of M Cribbage Club, a pastime he routinely enjoys with his co-founder and clients.

After graduation, David focused his interest on healthcare. Paired with the onset of the Affordable Care Act, he completed his law degree at William Mitchell College of Law. His law school education was coupled with more than 500 hours of legal aid work at local organizations, and job experience with non-profits, government agencies and a private consulting firm.

Entrepreneurial Endeavors

David saw an opportunity with the huge shift in healthcare from the Affordable Care Act. With a drive and dedication to help fellow business owners, entrepreneurs and healthcare patients, David established his own law practice with a focus on healthcare and business law.

On the business side, Holt Law is committed to helping businesses and entrepreneurs thrive in Minnesota. David helps business owners get legal and navigate regulations across state and federal healthcare regulations as well as E-Commerce law protecting those who sell products and services online.

From a healthcare standpoint, Holt Law focuses on healthcare for the little guy. The healthcare side of Holt Law spawned into a second venture for David, who became the co-founder and general counsel for miVoyce. MiVoyce is a business that provides an online training solution for individuals to learn how to navigate the expensive and complicated U.S. healthcare system without retaining an attorney. MiVoyce teaches individuals how to read medical bills, spot errors, price-shop healthcare, request medical records, file insurance appeals and negotiate manageable payments.
